# LAMP Test App: Testing PDF

If you've already downloaded the app and tested on the website. Try printing this sheet and testing these 3 examples with their given control setups.

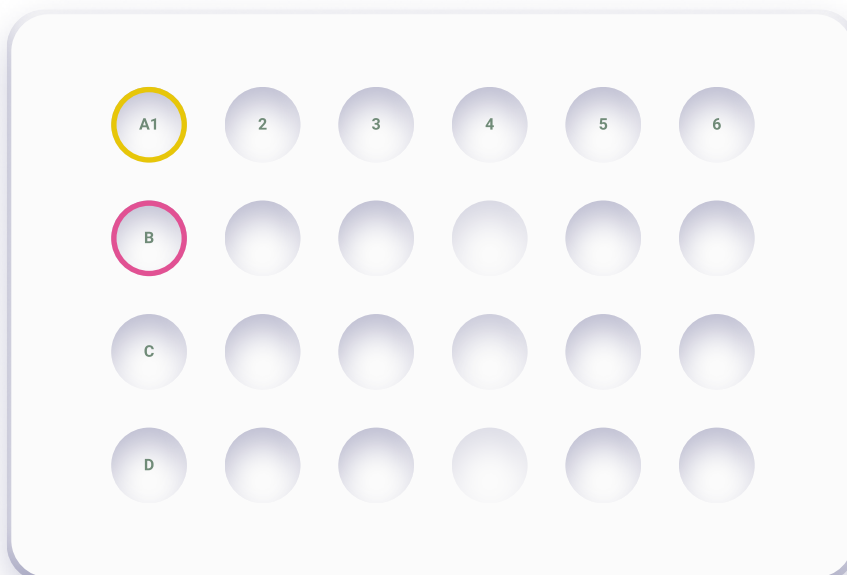

Test Plate Z

| A1	2	3	4	5	6
B					
C					
D					

Control selection Z

Test Plate Y

Control selection Y

Test Plate X

Control selection X

In each plate you should find 3 positive wells, with the remaining results being either negative or control wells.

If you're still having trouble analysing your results you can provide feedback to feedback@icmobilelab.com
